- Glass colour / type
- Size
- Shape
- Specification
- Standards Requirement

GJ ShieldTek Impact is a comprehensive range of flat glass windscreens and side windows which can be supplied as glass only or incorporated into a fully fabricated, purpose made aluminium perimeter frames.

Both framed and non-framed products conform with the requirements of AS/NZS 2080 Safety glazing for land vehicles. However, additional testing for compliance to meet particular impact standards can be requested. GJ ShieldTek Impact can also be manufactured to meet other performance and/or aesthetic requirements including digital printed borders (solid or dot matrix).

GJ ShieldTek Impact range has a reputation for quality that only an Australian made product can achieve. Continued product development and testing ensures G.James remain at the forefront of this market .
