- Landings
- Entries and Foyers

HOW TO SPECIFY

- Select Glass Name
 1. Incus X
 2. Lunaris T
 3. Lunaris X
 4. Aluminium X

OptiLam® Floor

Glass can be used as flooring and stair tread components to create stunning architectural features, allowing natural light to penetrate through to the floors below.

The OptiLam® Floor system is a custom designed, multi-laminate composing multiple components of annealed, heat strengthened or toughened glass bonded together with either poly vinyl butyral (PVB) or SentryGlas™ (SG) interlayer.

OptiLam® Floor systems are suitable for both internal and external applications.

Utilising G.James in-house engineering services, each flooring system is custom designed to withstand specific design loads with built in human safety and fail-safe contingencies G.James is renowned for. G.James offer a range of non-slip contemporary patterns specifically designed for the OptiLam® Floor system.

The OptiLam® Floor system can incorporate clear, low iron or tinted glass substrates combined with clear, tinted or OptiLam® Vanceva®¹. OptiLam® Floor can also incorporate the ColourLite® Pattern, Graphic or Image range of products to create a truly unique flooring solution.
